PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

**I. INTRODUCTION**

Pursuant to 47 C.F.R. § 54.313 (2012),<sup>1</sup> Cellco Partnership d/b/a Verizon Wireless, on behalf of itself and its subsidiaries and affiliates providing commercial mobile radio service (“CMRS”) in the State of North Carolina (“Verizon Wireless” or “Company”), submits this 2012 Eligible Telecommunications Carrier (“ETC”) Certification and Annual Report.

**II. CONFIDENTIALITY**

The data in this report and the attached exhibits represent commercial and financial trade secrets regarding Verizon Wireless’ network build-out plans and other matters that are highly sensitive due to the competitive nature of the wireless industry. Accordingly, Verizon Wireless respectfully requests that the Federal Communications Commission (“Commission” or “FCC”) treat this data as confidential and withhold it from public inspection pursuant to 47 C.F.R. §§ 0.457(d)(1) and 0.459.

**III. BACKGROUND**

In 2004, the Commission initially designated Alltel Communications, LLC (“Alltel”) as an ETC in certain non-rural telephone company wire centers pursuant to 47 U.S.C. § 214(e)(6).<sup>2</sup> The Commission subsequently approved the expansion of Alltel’s designated service area in 2008 to include certain rural telephone company study areas and individual wire centers.<sup>3</sup>

PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

A complete listing of the non-rural telephone company wire centers and rural telephone company study areas and wire centers in which Alltel was designated as an ETC by this Commission is attached as **Exhibit A** ("Designated Area").

On January 9, 2009, Cellco Partnership d/b/a Verizon Wireless ("Cellco") acquired Alltel Corporation and each of its subsidiaries and affiliates, including Alltel.<sup>4</sup>

On May 28, 2010, the Commission approved a petition for *pro forma* amendment of the ETC designation held by Alltel and its affiliated legal entities in North Carolina to reflect Verizon Wireless as the designated entity.<sup>5</sup> USAC has assigned Verizon Wireless Study Area Code ("SAC") 239003 for its continuing operations in North Carolina.

**IV. ANNUAL ETC REPORT IN ACCORDANCE WITH SECTION 54.313(a)**

47 C.F.R. § 54.313(a) requires a recipient of federal high-cost universal service support to annually report certain information no later than April 1 of each calendar year.<sup>6</sup> Verizon Wireless respectfully submits the following information for the period January 1, 2011 through December 31, 2011 in satisfaction of the Commission's annual reporting requirement.

---

*Telecommunications Carrier*, WC Docket No. 05-337, CC Docket 96-45, 23 FCC Rcd 8834 (2008).

<sup>4</sup> *In the Matter of Applications of Cellco Partnership d/b/a Verizon Wireless and Atlantis Holdings LLC for Consent to Transfer Control of Licenses, Authorizations and Spectrum Manager and De Facto Transfer Leasing Arrangements*, WT Docket No. 08-95, Memorandum Opinion and Order and Declaratory Ruling, 23 FCC Rcd 17444 (2008) (*Merger Order*).

<sup>5</sup> *In the Matter of Federal-State Board on Universal Service, Cellco Partnership d/b/a Verizon Wireless, Petitions for Pro Forma Amendment of Eligible Telecommunications Carrier Designations in the Commonwealth of Virginia and the States of Alabama and North Carolina*, WC Docket 09-197, CC Docket 96-45, 25 FCC Rcd 5955 (WCB 2010) (*Pro Forma Order*).

<sup>6</sup> Pursuant to the *USF/ICC Transformation Order* and *Clarification Order*, in 2012 competitive ETC recipients of federal high-cost universal service support are only required to address the reporting requirements set forth in 47 C.F.R. § 54.313(a)(1) through (a)(8). Other reporting requirements set forth in 47 C.F.R. § 54.313(a) are not required to be addressed until 2013 or have otherwise been deferred to a later reporting period.

PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

**A. Service Improvement Plan Progress Report**

47 C.F.R. § 54.313(a)(1) requires a high-cost support recipient to file a progress report on its previously filed service quality improvement plan. 47 C.F.R. § 54.313(a)(1) specifically requires:

A progress report on its five-year service quality improvement plan pursuant to §54.202(a), including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve service quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled in the prior calendar year. The information shall be submitted at the wire center level or census block as appropriate.<sup>7</sup>

On October 1, 2011, Verizon Wireless submitted an updated Service Improvement Plan as “Confidential Exhibit D” to its 2011 Certification and Annual Report (the “Service Improvement Plan”). Verizon Wireless’ progress report on the Service Improvement Plan for the period January 1, 2011 through December 31, 2011 is attached as **Confidential Exhibit B**. The progress report also includes (1) a map attached as **Confidential Exhibit C** detailing the Company’s progress toward meeting its plan targets in 2011; (2) an explanation of how much universal service support was received in 2011 and how the support was used to improve signal quality, coverage or capacity; and (3) an explanation regarding network improvement targets that were not met. The progress report is submitted on a wire center-by-wire center basis.

Additionally, Verizon Wireless has updated the remaining year of the Service Improvement Plan as set forth in the attached **Confidential Exhibit D**. The update includes all of the information required by 47 C.F.R. § 54.313(a)(1) for calendar year 2012.

---

<sup>7</sup> *Clarification Order*, DA 12-147 at para. 5 (ETCs previously designated by the Commission are required in 2012 to file a progress report on their existing five-year build-out plans currently on file with the Commission).

PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

In 2011, Verizon Wireless utilized, and will continue to utilize in 2012, federal high-cost universal service support for the provision, maintenance and upgrading of the facilities and services for which the support is intended consistent with 47 U.S.C. § 254(e) and 47 C.F.R. § 54.7.

The projected expenditures included in **Confidential Exhibit D** are based on the assumption that Verizon Wireless will receive the projected amount of federal high-cost universal service support identified on **Confidential Exhibit E**. The estimates of Verizon Wireless' future universal service support reflect the condition of the *Merger Order* requiring a phase-down of high-cost support in 20 percent increments over a period of five years following the closing.<sup>8</sup>

If actual receipts differ from those assumed in this report, Verizon Wireless reserves the right to modify its projected capital and operating expenditures for the Designated Area.

**B. Network Outages**

47 C.F.R. § 54.313(a)(2) requires a high-cost support recipient to annually report network outages within its ETC designated area. 47 C.F.R. § 54.313(a)(2) specifically requires:

Detailed information on any outage in the prior calendar year, as that term is defined in 47 C.F.R. 4.5, of at least 30 minutes in duration for each service area in which an eligible telecommunications carrier is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affect (i) at least ten percent of the end users served in a designated service area; or (ii) a 911 special facility, as defined in 47 C.F.R. 4.5(e). (iii) Specifically, the eligible telecommunications carrier's annual report must include information detailing: (A) The date and time of onset of the outage; (B) A brief description of the outage and its resolution; (C) The particular services affected; (D) The geographic areas

---

<sup>8</sup> *Merger Order* ¶¶ 192-197; see also High-Cost Universal Service Support; Federal-State Joint Board on Universal Service; *Request for Review of Decision of Universal Service Administrator by Corr Wireless Communications, LLC*, WC Docket No. 05-337, CC Docket No. 96-45, Order and Notice of Proposed Rulemaking, FCC 10-155, ¶¶ 14-17 (2010); *Connect America Fund et al.*, WC Docket No. 10-90 et al., Order, DA 12-298 (WCB Feb. 27, 2012) (*Second Clarification Order*) (clarifying application of USF support phase-down to Verizon Wireless).

PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

affected by the outage; (E) Steps taken to prevent a similar situation in the future; and (F) The number of customers affected.

The required information for the time period January 1, 2011 through December 31, 2011 is contained within **Confidential Exhibit F**. Verizon Wireless has compiled and reported information for all outages that meet the above criteria within the Designated Area in North Carolina for the aforementioned time period. Such information includes any outage of at least 30 minutes in duration that potentially affected at least ten percent (10%) of its customers served in a service area or a 911 facility. The services affected by an outage were dependent upon the capabilities of the particular facility affected by the outage. Generally, a cell site or switch outage will affect all services provided by the cell site or switch, including voice, data and/or 911 services. The information relating to the number of customers affected by an outage is estimated based on the number of customers with a billing address in each affected wire center.

The steps taken to prevent a similar outage in the future will vary based on a determination of the cause of the outage. Each network outage is examined on a case-by-case basis. For example, when the outage is due to equipment failure, the equipment is replaced or repaired and tested for proper performance, including preventive maintenance. Additionally, the manufacturer or vendor is notified if the failure appears to be in the design or manufacture of the equipment. If the vendor or manufacturer fails or refuses to remedy the deficiency, then a replacement source is determined. Similarly, when the outage is due to weather or other natural occurrence, the probability of a repeat occurrence is considered and evaluated in planning the repair, replacement or rebuild of the equipment or location. Outages due to human error or a faulty process or practice will result in an appropriate reevaluation of the source of error and the need to correct, discipline or replace the person or practice, as applicable. An outage on a leased facility or circuit is escalated and corrected by the third-party facility provider. The outages

reported on **Confidential Exhibit F** were not determined to require extraordinary measures other than application of the above procedures.

**C. Unfulfilled Requests For Service**

47 C.F.R. § 54.313(a)(3) requires a high-cost support recipient to annually report the number of requests for service from potential customers within the ETC's designated area that were unfulfilled during the past calendar year. The filing must also detail how the ETC attempted to provide service to those potential customers. The required information concerning unfulfilled requests for service within the Designated Area in North Carolina from January 1, 2011 through December 31, 2011 is contained in **Confidential Exhibit G**.

**D. Complaints Per 1,000 Handsets or Lines**

47 C.F.R. § 54.313(a)(4) requires a high-cost support recipient to report annually the number of complaints per 1,000 connections (fixed or mobile) in the prior calendar year. Verizon Wireless received [redacted] complaints per 1,000 handsets associated with SAC 239003 between January 1, 2011 and December 31, 2011.<sup>9</sup>

**E. Certification Regarding Applicable Service Quality Standards And Consumer Protection Rules**

47 C.F.R. § 54.313(a)(5) requires a high-cost support recipient to certify that it is complying with applicable service quality standards and consumer protection rules. Verizon Wireless' compliance with the CTIA Consumer Code for Wireless Service ("CTIA Consumer Code") satisfies this requirement. Verizon Wireless certifies that it has complied and will continue to comply with the principles set forth in the CTIA Consumer Code.

---

<sup>9</sup> Complaints consist of written complaints from customers submitted to the Commission, the North Carolina Utilities Commission, the North Carolina Attorney General, the Better Business Bureau or similar third party agencies and oral, written, and e-mail complaints submitted to the Company's Executive Complaint Department.

**F. Certification Regarding Ability to Function in Emergency Situations**

47 C.F.R. § 54.313(a)(6) requires a high-cost support recipient to certify that it is able to function in emergency situations as set forth in Section 54.202(a)(2). The following information demonstrates an ability to remain functional in emergency situations in satisfaction of this requirement.

Each cell site is equipped with battery standby power engineered to maintain a standard of eight hours backup with a two-hour minimum standard when restricted by site location. Each cell site, unless restricted by site location, also has a permanent standby generator on site, or has the necessary equipment to allow a portable generator to be quickly and safely connected to the site in the event of a commercial power failure. Portable generators are available for transport to an area affected by a commercial power outage. Backup generators are tested on a regular basis to assure functionality. Thus back-up power systems and procedures have been implemented to ensure functionality without an external power source.

In the event of damaged facilities, telecommunications traffic may be rerouted on the network to minimize service disruptions. The network design philosophy also includes redundancy on critical paths and components so that a potential failure of one component does not significantly affect service. The wireless voice and data switching networks are designed to provide continuous service to the customer. The communications between internal switches and external networks, such as the public switched telephone network ("PSTN") and the Internet, are also designed to reduce the possibility of interrupted communications.

The network is comprised of numerous components that are connected using a combination of traditional landline telecommunication networks and microwave radio links. Many of the network's critical locations are supported with diverse circuits, network technologies, and alternative local telecommunications carriers. The impact of a severed fiber

PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

optic cable or a faulty T-1 circuit is minimized by this diversity in telecommunications connectivity.

Business procedures have also been adopted to assure minimal service disruptions. These procedures include frequent and thorough preventive maintenance, real-time monitoring of all key system components, the availability of trained maintenance personnel 24 hours a day, 7 days a week to repair or resolve critical failures should they arise, and wide deployment of these personnel and spare parts to permit rapid response and restoration of service.

The network is also designed to manage traffic spikes and minimize call blocking in emergency situations. In order for a traffic spike to result in call blocking, the number of simultaneous calls must exceed the total number of voice paths available at one or more serving cell sites at a given location. Statistical analyses are used to track call blockage in each sector during the busiest hours each month. These statistics are trended and used to predict the required capacity at each cell site. Based on these predictions, capacity is added to each cell site before it reaches overcapacity. In the event unpredictable spikes occur, steps can be taken to increase the call capacity at cell sites as needed, or to deploy temporary "Cells On Wheels" ("COWs") as needed to accommodate the increased demand on the network. These capabilities and systems reasonably minimize call blocking from potential traffic spikes during emergency situations. Verizon Wireless therefore certifies the ability to function in emergency situations as set forth in Section 54.202(a)(2).

**G. Price Plan Offerings**

47 C.F.R. § 54.313(a)(7) requires a high-cost support recipient to provide the company's price plan offerings in a format as specified by the Wireline Competition Bureau.<sup>10</sup> Information

---

<sup>10</sup> As of the date of filing, the Wireline Competition Bureau has not specified the format for submission of price plan information.

PUBLIC VERSION  
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

concerning the Company's current generally available price plans (including price plans that are offered to eligible Lifeline consumers) is available at [www.verizonwireless.com](http://www.verizonwireless.com) and [www.verizonwireless.com/lifeline](http://www.verizonwireless.com/lifeline).

**H. Company Information**

47 C.F.R. § 54.313 (a)(8) requires a high-cost support recipient to provide the recipient's holding company, operating companies, affiliates, and any branding, as well as universal service identifiers for each such entity by Study Area Codes, as that term is used by USAC. The required ownership information concerning the Company's wireless affiliated recipients of federal high-cost universal service support and the associated Study Area Codes for those wireless affiliates is contained in **Exhibit H**.

**CERTIFICATION**

The undersigned, Mark R. Smith, does hereby certify as follows:

1. I serve as Assistant Secretary for Cellco Partnership d/b/a Verizon Wireless and each of its subsidiaries and affiliates providing commercial mobile radio service ("CMRS") in the State of North Carolina (the "Company").

2. This certification is submitted in support of the Company's 2012 Eligible Telecommunications Carrier Certification and Annual Report.

3. The Company has been designated a competitive ETC in areas identified in **Exhibit A** of its 2012 Eligible Telecommunications Carrier Certification and Annual Report.

4. I have reviewed the Company's 2012 Eligible Telecommunications Carrier Certification and Annual Report for the State of North Carolina and certify that the facts stated therein, of which I have personal knowledge, are true and correct to the best of my present knowledge, information and belief.

5. Consistent with 47 U.S.C. § 254(e) and 47 C.F.R. §§ 54.7 and 54.314, the Company certifies that all federal high-cost universal service support received was used and will be used only for the provision, maintenance and upgrading of facilities and services for which the support is intended.
